TEC131 90 wipes/container
TEC13101 4-containers/Cs

CORRECT-IT CLAY SYSTEM

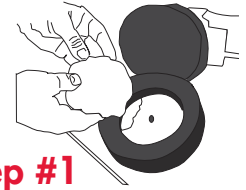

Tomorrow's Technology Today

PROFESSIONAL SERIES

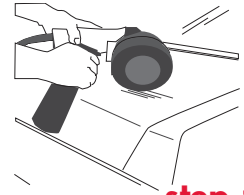

PAINT CORRECTION

Using the System

step #1

For proper pad, see item **TEC1070**. Pad cavity should be clean and dry. Press Technician's Choice clay bar into a flat, oval shape and press firmly into pad cavity.

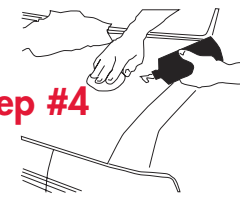

step #2

Spray apply **TEC506** or **TEC510 Correct-It-Liquid** or **Correct-It Detailer** to approximately a 3' X 3' area on the surface of the vehicle. The surface must be clean and cool.

step #3

Now "clay" the surface using a recommended polisher (see page 35 this catalog) operating at 750 to 1500 random orbits per minute. Depending on surface condition, use light to heavy pressure.

step #4

Once you've completed the clay process and you've wiped clean the vehicle's surface, you can complete the process if you desire with a polish, wax or **The Protector®** protective coating in this catalog.

Technician's Choice Correct-It-Clay pad quickly and efficiently removes surface contaminants on new and pre-driven vehicles producing a dynamic new car showroom shine! Eliminates rail dust and minor paint overspray. Cleans away bugs, road tar and much more. Removes buffing throw-off.

Item	Description
TEC 1070 Correct-It Clay Pad	Designed to hold 180 gram or 200 gram brick. Velcro® backed to work with all random orbital polishers. Cuts labor time in half! 12/Case
TEC 507 Light Gray Correct-It Clay (fine)	Correct-it Clay (fine) is the surface bar that safely eliminates rail dust and minor paint overspray on all automotive paint finishes. For best results, use with TEC506 or TEC510. 200 gram Brick 100/Case
TEC 511 Purple Correct-It Clay (medium)	Having the same benefits as TEC507, TEC511 is a heavier grade clay where more aggressive removal is required. For best results, use with TEC506 or TEC510. 200 gram Brick 100/Case
572861 Light Blue Correct-It Clay (medium)	For best results, use with TEC506 or TEC510. 180 gram Brick 90/Case
572761 Dark Blue Correct-It Clay (fine)	For best results, use with TEC506 or TEC510. 180 gram Brick 90/Case
TEC 512 Plastic Box for Clay System	Ideal for clay storage. It's reusable and keeps clay fresh. EACH

Item	Description
TEC 506 Correct-It Liquid Body Shop Safe	Correct-It liquid contains no silicone, wax or hazardous ingredients. Use as a clay lubricant. Works great on all painted surfaces. Purple color and great grape scent. TEC506 16 oz • TEC50616 6-16 oz. • TEC506 1 gal • TEC50601 4-1 gal/Case
TEC 510 Correct-It Detailer	Correct-It Detailer is a water-based silicone, producing a dynamic showroom shine. Removes buffing throw-off. An excellent clay lubricant. Works on chrome, glass, dark vehicles without streaking. Developed as a spray-on, wipe-off formula. Peach color and scent. TEC510 16 oz • TEC51016 6-16 oz. • TEC510 1 gal • TEC51001 4-1 gal/Case

Professional Training Courses (hands-on and classroom style) are available and include the use of the **Correct-It Clay System** at ECP's National Training Center.

For more information, call **1.800.323.3521**

COMPOUNDS, POLISHES & GLAZES

paint correction

TEC 136561 CYCLO POLISHER

The Cyclo Polisher has dual orbital action heads. Cyclo's exclusive "gentle hand" cam action allows the two heads to move independently in overlapping motions. You will achieve hand-rubbed quality at a much faster rate. There is no chance of heat buildup so there is no chance of burning the paint. You get a professional swirl free finish. Great polisher for clear coats and the novice detailer.
Specs: 6.5 lbs, 3,200 opms, heavy-duty cast aluminum, 60 cycle, 1/3 HP, 2.0 amps, 115V, 60HZ.

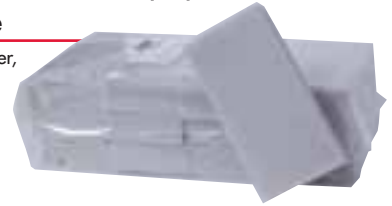

TEC 136661 CYCLO SHAMPOO BRUSH

Cyclo upholstery cleaning brush.
